Are You Ready?

SQL Server 2014, 2016 & 2017 Master Class

SQL Server 2014 & 2016 have been the best release ever with some spell bounding features and functionalities including In-Memory & Columnstore. SQL Server 2016 has been rated as a leader in OLTP databases by Gartner Research and holds record breaking performance in TPC benchmarks. SQL Server handles some of the toughest database deployments across the globe. This 40-hour course is designed to give you the right amount of internal knowledge and loads of practical on all the features & functionalities of SQL Server 2014 & 2016, & new features in SQL Server 2017. The course has advanced coverage of In-Memory & Columnstore feature and comprehensively covers many less-used features like Resource Governor IO & Buffer Pool Extension. Overall, this is the most detailed, advanced & comprehensive training on SQL Server 2014, 2016 & 2017 database engine. The course will be taught by Amit Bansal, Microsoft Certified Master of SQL Server!.

SQL Server Performance Tuning Master Class, Bangalore, March 2015

SQL Server Performance Tuning Master Class, Hyderabad, April 2015

Course Title:
Implementing Microsoft SQL Server 2014, 2016 & 2017

Duration: 40 hours (3 days/8 hours each of Classroom training & 16 hours of anywhere/anytime Hands-on-Labs)

Schedule:
To browse the latest schedule of SQL Server Performance Tuning Master Class, visit:
http://www.sqlmaestros.com/sql-server-classes-india/

Key Highlights of Training:

- The most advanced SQL Server 2014, 2016 & 2017 workshop
- 40 hours of deep dive learning with Hands-on-Labs
- True level 300-400, exclusive content
- Gain real-world knowledge, get real-world exposure
- Get your own copy of SQLMaestros course material
- Packed with real-world demos and examples
- Learn from the Master: Amit Bansal is one of the very few Microsoft Certified Masters

About The Instructor:
Amit R S Bansal, Director at eDominer Systems, is a Microsoft Certified Master of SQL Server & Microsoft MVP. He has worked on countless SQL Server projects since 1997, consulted, trained & mentored more than 15000 SQL Server professionals, delivered more than 500 workshops for 150+ SQL Server customers worldwide. He also speaks at international conferences on SQL Server and authors SQL content for Microsoft Corporation. Amit is also an ex-Microsoft Regional Director.

Course Outline:

Module 1:	In-Memory OLTP Overview
Module 2:	In-Memory OLTP (Database Administration)
Module 3:	In-Memory OLTP (Database Development)
Module 4:	In-Memory OLTP Migration
Module 5:	In-Memory OLTP Performance Troubleshooting
Module 6:	In-Memory OLTP: Memory/Storage Monitoring and Troubleshooting
Module 7:	Buffer Pool Extension
Module 8:	Columnstore Index Overview
Module 9:	Non-Clustered Columnstore Index
Module 10:	Clustered Columnstore Index
Module 11:	Columnstore Index Internals
Module 12:	Optimizer & Query Plan Enhancements
Module 13:	Resource Governor for I/O
Module 14:	Delayed Durability
Module 15:	Always On Availability Groups in SQL Server 2014 & 2016
Module 16:	In-Memory OTLP in SQL Server 2016 – What's New?
Module 17:	Columnstore Index in SQL Server 2016 – What's New?
Module 18:	Security in SQL Server 2016-What's new?
Module 19:	Query Store and Live Query Statistics
Module 20:	SQL Server 2016 Operational Analytics
Module 21:	Temporal & JSON in SQL Server 2016
Module 22:	Always Encrypted
Module 23:	Stretch Database
Module 24:	Dynamic Data Masking & Row Level Security
Module 25:	Miscellaneous Enhancements in SQL Server 2014 & 2016
Module 26:	SQL Server 2014 & 2016 – Hybrid Scenarios
Module 27:	SQL Server Upgrade

SQL Server Performance Tuning Master Class, Bangalore, Dec 2014

About SQLMaestros
SQLMaestros.com, a brand of eDominer Systems, is a focused team of Microsoft Data Platform specialists. Over the last decade we have consulted & trained more than 120+ customers on countless SQL Server projects. We demonstrate in-depth expertise and offer world-class consulting services. Our team travels extensively across the globe to deliver consulting & training services. More than 150 customers have hired us to train & mentor their SQL resources.
