

SQL Server Performance Tuning Master Symposium

2 Days, Seminar Style, Fast-Track, 100% Demo Oriented

Are You Ready?

SQL Server Performance Tuning Master Symposium

Title : SQL Server Performance Tuning Master Symposium
Duration : 2 full days (9 am to 6 pm)

Schedule : To browse the latest schedule of SQL Server Performance Tuning Master Symposium, visit:

<http://www.sqlmaestros.com/sql-server-classes-india/>

Key Highlights:

- Undoubtedly, the most comprehensive symposium on SQL Server Performance Tuning.
- 16 hours of demo-oriented learning
- True level 200-300, exclusive content
- Gain real-world knowledge, get real-world exposure
- Packed with real-world demos and examples
- Get your own copy of SQLMaestros symposium course material developed by Amit Bansal
- State-of-the-art theater style setup
- Learn from the Master: Amit Bansal is the only Microsoft Certified Master of SQL Server in India (outside Microsoft)

SQL Server is an enterprise level RDBMS server with a very powerful database engine capable of handling toughest of requirements in terms of scalability, availability, extensibility and performance. Many factors impact performance. This symposium is designed to give you practical tuning & optimization techniques that you can put into production right-away. The 2 day seminar provides comprehensive coverage of performance troubleshooting with CPU, Memory, IO, TempDB, Concurrency & Query Tuning. Along the way key tools like Extended Events, Wait Stats, DMVs etc are covered. There is a special focus on indexes too! Whether you are a DBA, Developer or an Architect, if you are working with SQL Server, this seminar is a must for you. Our symposiums are fast rack, seminar style and 100% demo oriented. And the symposium is delivered by the master himself, Amit Bansal. Can you ask for more?

Coverage Includes:

Wait Stats, CPU troubleshooting, Memory troubleshooting, IO troubleshooting, TempDB troubleshooting, Concurrency troubleshooting, Query Tuning, Index Tuning and more!
